ENTERTAINMENT FOR KIDS, FESTIVALS AND CORPORATE EVENTS

STAGE SHOWS AND FLOOR SHOWS BRIEF

FAMILY FRIENDLY FESTIVAL FUN

“ARRR” IS FOR ADVENTURE

Nautical Nonsense and Sea Shanty Shenanigans are on the horizon! "ARRR" is the perfect piratical circus show for the family. Combining contact juggling, prop spinning/manipulation, puppetry and mime, Pirateman delivers a wonderful adventure based show for the family!

“ARRR” lasts for 45 minutes (or a 20 minute abridged version) and can be performed on stage or in a street theatre style setting. The show has gained a 4 star rating at the Adelaide Fringe Festival 2017 (Kryztoff RAW) and 3½ stars by The West Australian during Fringe World 2016. "ARRR" is performed across regional WA and locally at festivals including the Kununurra Show, Esperance Festival of the Wind and Balingup Medieval Carnival to name a few.

PARTICIPATORY PIRATE PUPPET ADVENTURE (3PA)

A sensory story telling treasure hunting adventure for kids aged 4-8. 3PA is an interactive 20-30 minute show where children engage their primary 5 senses to discover the secret treasure of adventure!

Children borrow a pirate puppet companion for the adventure (or provide their own if numbers are too great) that will help them in this story telling adventure show. As a pirate crew, kids follow a map and search for clues to overcoming trials by the puppet characters Pirateman controls. Kids receive a card or a sticker at the end to remind them of the fantastic adventure they went on and to remind that the secret treasure of adventure lies within all of us!

COOL TRICKS WITH GLOW STICKS

The newest show coming soon from Atmospheric Artistries subtitled as "The greatest show off the planet"!

Pirateman and a hearty crew of individuals boldly set sail into the far reaches of space while taking along the audience for a joy ride! A galling tale with circus spinning, contact juggling/juggling and flow arts (e.g. the movement of a prop with the body to conduct a graceful and enticing display) this highly visual and energetic show is bound to blast off imaginations and encourage kids to pick up a circus prop hobby.

Given the nature of the show, it is best performed at dusk/night or in a black box theatre where darkness can be obtained. This performance can last from 15 minutes to 45 minutes with 1-3 performers.

CORPORATE/PROFESSIONAL ENTERTAINMENT

FIRE SHOW

The 'Ruby Rose' of the Atmospheric Artistries treasure trove of talents, performances and acts! A headlining spectacle!

Michael wields 10 different fire tools including a fire contact juggling ball, fire levitation and illusions, twirling tools and mighty flaming swords all within this progressive and dangerously enticing display of coordination, grace and amazement! Michael performs alone or with other performers for the show, with options for 5 minutes to 15 minutes solo sets or 10 to 20 minute sets in a group performance.

Fire performances can match any themed event with costumes and musical choreography choices, just let Michael know your themed event.

LED LIGHT MANIPULATION SHOW

Sometimes fire is not an option at an event! Not to fear, Michael can still able to leave you dazzled and mesmerised with his LED light manipulation performance.

LED performances are hypnotically entrancing allowing the audience to be visually engaged with colour changing and mind bending light patterns. LED performances include Buugeng (Japanese boomerangs), twin staff, poi, contact juggling and 3 ball juggling with a few extra surprises. LED shows are becoming one of Michael's more popular corporate options.

LED show are highly recommended for children events too as kids get involved within Michael's talents without the temptation to go home and try what they see with fire. Like fire shows, LED shows can last 5-15 minutes solo or 10-20 minutes group set and can cater to suit different themes.

X (MARKS THE SPOT)

Pirateman's most boisterous show guaranteed to please the young at heart with a naughty mind (18+ ONLY).

Debuting at Fringe World in 2017 and touring Adelaide Fringe and Busselton Fringe, this one-man cabaret/circus/male burlesque extravaganza combines all of Pirateman's talents condense in a 45-minute theatrical performance. Prerecorded narrative ties all the acts together into a nautical story for any type of crowd to get involved with as they set sail for adventure.

Low levels of nudity and fire/smoke effects are within this show. Multiple costume changes do occur, so a backstage is needed for this performance. Pirateman also provides a stage assistant and tech assistant for the performance to allow for smooth transitions.

STREET THEATRE & ROVING ENTERTAINMENT

ROVING CHARACTERS/ ENTERTAINMENT

Atmospheric Artistries provides many different themed characters for events. From Pirateman's nautical nonsense and much loved/well known contact juggling and arm slinky antics to professionally dressed vintage vaudevillians. Have a look through the attached "Roving Characters" document for a full list.

HUMAN ARRRCADE

Street theatre meets a new level of silliness in epic proportions!

The Human ARRRcade is an interactive puppet show where viewers become "players". With assistance from video game controllers and a treasure chest of puppets/toys, player/s determine what happens on screen.

Human Arcade works well at all day festivals along the side of a street/walkway or as hourly sessions on a floor stage/play space. A creative new look on an old school nostalgic way to play

GALACTIC GLOWBOX

Combining an old school jukebox with a visually amazing display of LED circus and flow art manipulation. The Intergalactic Space Crusader's Galaxy Glowbox is the newest idea to come from Atmospheric Artistries.

Through the choice of coloured cups audiences can govern what the Interactive Space Crusader will be performing with (e.g. Staff, Buugeng, juggling... etc.), what colour the prop is and what style/genre of music will be played during the short act. The ISC street project can be done via busking/donation where the crowd will use their own coins to put in the cups OR special coins can be provided to the crowd so they can put a token into a cup which will determine what the Interactive Space Crusader will do
